

Tabelle1

|                | BASIC V2 | Austro-Comp | Basic Boss | Basic64-P | Basic64-M | Blitz |
|----------------|----------|-------------|------------|-----------|-----------|-------|
| Simple loop    | 100      | 169         | 238        | 174       | 199       | 214   |
| Quicksort      | 100      | 515         | 2051       | 804       | 1410      | 790   |
| Hilbert curve  | 100      | 676         | 476        | 801       | 1267      | 1038  |
| Mandelbrot     | 100      | 336         | 411        | 388       | 487       | 415   |
| Balls          | 100      | 400         | 374        | 429       | 539       | 570   |
| RAM copy       | 100      | 497         | 526        | 546       | 696       | 619   |
| String ops.    | 100      | 441         | 689        | 607       | 801       | 617   |
| Prime numbers  | 100      | 396         | 464        | 478       | 604       | 550   |
| DATA read      | 100      | 703         | 812        | 890       | 1167      | 876   |
| Jumps          | 100      | 447         | (*) 662    | 427       | 493       | 603   |
| Math functions | 100      | 117         | 117        | 121       | 125       | 122   |
| Total          | 100      | 329         | 363        | 369       | 439       | 411   |

(\*) Basic-Boss' GOSUB implementation is faulty, which is faster but can cause problems

(\*\*) Hypra-Comp's program didn't run
